

SUPREETH B R

Rajkot, Gujarat — 8217044847 — supreethbr2k5@gmail.com — LinkedIn — GitHub

EDUCATION

Bachelor of Technology in Computer Science Engineering Marwadi University, Rajkot, Gujarat (NAAC A+)	<i>Jun 2024 - Jul 2027</i> CGPA: 6.5
Diploma in Computer Science Sanjay Gandhi Polytechnic, Rajkot, Gujarat	<i>Oct 2021 - Apr 2024</i> CGPA: 8.0
10th Grade Secondary SES English Medium School, Rajkot	<i>Jun 2020 - Jul 2021</i> 70 percent

INTERNSHIP EXPERIENCE

Web Intelligence and Data Analysis Corizo, Bengaluru, Karnataka	<i>Mar 2024 - Apr 2024</i> Remote
- Developed machine learning models for data analysis and pattern recognition on production datasets - Implemented predictive systems extracting actionable insights from complex data - Collaborated with engineers on optimization and machine learning best practices	
Web Development and AI Integration Corizo, Bengaluru, Karnataka	<i>Jan 2024 - Apr 2024</i> Remote
- Built full-stack web applications using React.js, Node.js, and Express.js - Integrated machine learning algorithms with web interface components - Optimized application performance through code refactoring and caching strategies	

PROJECT WORK

PhishNet Sentinel: AI-Based Phishing Detection Browser Extension (Real-time Machine Learning)	<i>Feb 2026 - May 2026</i>
- Engineered AI-powered browser extension with 95 percent plus detection accuracy - Implemented web mining and machine learning algorithms using Scikit-learn and Python - Developed real-time detection using HTML, CSS, JavaScript, and Browser Extension APIs - Achieved 95 percent plus accuracy with less than 3 percent false positive rate on comprehensive datasets	
Election Forensics: Anomaly Detection in Electoral Systems Machine Learning (Statistical Analysis)	<i>Oct 2025 - Dec 2025</i>
- Developed machine learning models detecting anomalies in electoral data using statistical methods - Applied statistical analysis and synthetic data generation for comprehensive testing - Implemented classification algorithms with advanced feature engineering techniques - Technologies: Python, Scikit-learn, Data Analysis, Statistical Methods	

TECHNICAL SKILLS

Languages: Java, Python, C, C++, JavaScript, HTML, CSS
Frameworks: React.js, Node.js, Express.js, TensorFlow, Scikit-learn
Databases: MySQL, MongoDB, SQLite
Tools: Git, GitHub, VS Code, Postman, Browser Extension APIs
Specializations: Data Structures and Algorithms, Machine Learning, Full-Stack Development, Cybersecurity, API Development

CERTIFICATIONS AND TRAINING

Deloitte Australia Cyber Job Simulation Certipoint, Online Certification	<i>2024</i>
- Completed comprehensive cybersecurity threat assessment and vulnerability analysis - Demonstrated incident response and security best practices	

CORE COMPETENCIES

Technical: Data Structures and Algorithms, Machine Learning, Full-Stack Web Development, Cybersecurity, API Development, Database Design
Professional: Problem-Solving, Team Collaboration, Communication, Quick Learner
Languages: English (Full Professional), Hindi (Full Professional), Kannada (Native), Telugu (Native), Tamil (Limited Working)
Interests: Video Editing, Movies, Web Development, Open Source, Technology Innovation
